Pupil Procedures for Suspected Coronavirus

Coronavirus is a highly contagious virus and therefore we will implement the following pupil absence procedures to deal with suspect cases:

If you have any of the following symptoms you must not come to school under any circumstances:

Taken from NHS website:

- high temperature – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- new, continuous cough – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- loss or change to your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

Most people with coronavirus have at least one of these symptoms.

1. Call into the school office 0121 552 1215 Inform reception of your child (s) name and class and of any siblings and the last time they were in school.
2. Self-isolate immediately and arrange to be tested.
3. When your test results are back contact school again with the results.
4. If the result is negative and your child feels well enough, they can return to school on the next school day. If your child's test is positive, they and any siblings must remain off school for 14 days from the onset of symptoms.
5. Please be mindful of who you share information about your child's COVID status with, people in the community can very fearful of the virus and publishing that they are being tested on social media could cause anxiety to other families.
