

Why visit more than one school?

You might think you know where you want to go. Maybe your big brother/sister went there or all of your friends want to go. BUT.....

*You never know what you like until you have tried a few places.

*You might decide you prefer somewhere else

*Seeing a few schools might ensure you were right in the first place all along.

*Of course, you might have no idea where you want to go!

Seeing more than one school helps you and your parents make a much more informed decision. You don't know what you are missing if you don't have a look.

Who can I ask for advice?

The secondary schools themselves— including websites.

Your own teachers in school.

Friends and family who live in the area, although remember they can sometimes be biased!
