Revision tips:

Create a revision timetable that works for you and your child. For some families, 10 to 20 minute activities over a few days works best. For others, a longer study session one or two days a week might be better.

Keep revision light. Going over key skills (times tables, real world mental maths as you are shopping or cooking) is a good way to keep revision light.

Thank you for your support.

Mrs Wilding – Assistant Headteacher
